Edge + Cloud AI

5+

Industries

100%

Custom Fit

Without PlantWiz

- ✗ Losses go unrecorded
- ✗ Manual data entry & disputes
- ✗ Downtime goes unmonitored
- ✗ KPIs arrive too late to act

With PlantWiz

- ✓ Live view of every machine
- ✓ Automated KPI traceability
- ✓ Act on losses — same shift
- ✓ Decisions backed by data

BUILT-IN AI — NOT JUST DASHBOARDS

- ✓ Ask your plant questions in plain language — AI Bot answers from live data
- ✓ AI root-cause analysis on every downtime event
- ✓ Predictive alerts before breakdowns occur
- ✓ Auto-generated shift, daily & weekly reports

WHAT YOU GET

● Real-Time OEE & MEE

● Downtime Analysis & CAPA

● Capacity Utilisation

● Smart & Custom Alerts

● Logbook Digitisation

● Production Planning Map

BUILT FOR YOUR INDUSTRY

● Wire & Cable

● Packaging

● Auto Components

● Textiles

● Pharma / FMCG

● Food & Beverage

● Plastics & Rubber

● Engineering / OEM

HOW IT WORKS

01 CONNECT

Plug into your PLCs & sensors

02 VISUALISE

Dashboards live within days

03 ACT

Fix losses — same shift

Works with Rockwell · Schneider · Siemens · Mitsubishi · Delta | OPC-UA · MQTT · Modbus · EtherNet/IP · PROFINET

SEE PLANTWIZ LIVE

One real deployment — OEE, spindle monitoring & energy tracking, all in real time.

PROVEN RESULTS

Packaging industry OEE deployment

Upto 13%
Less Downtime

Upto 18%
More Productivity

100%
Accountability

THE PLANTWIZ PG-101 GATEWAY

Plug-and-play edge gateway — PLC to cloud, wired or wireless.

Fully Programmable
OpenWRT Platform

Multiprotocol
Communication

Local Data Buffering — Up
to 15 Days

Industrial-Grade I/O &
Protection

Multiple Connectivity
(MQTT/HTTPs/API)

Inbuilt RMS Capability

Schedule Your Plant Assessment
